

Add a user guide for your device!

Ups!

You probably expected to find a user guide for your instrument here. Unfortunately, this is just a dummy page.

Add a PDF version of the user guide for your device or instrument to the „**assets/PDF**“ folder and name it:

user-guide-<device name>.pdf

Afterwards set a link to that document in the meta data section of your device note, using the meta data key **user guide** in the YAML frontmatter section.
